Grasses

Date Thursday 2nd and Friday 3rd July 2009

Leader Ian Bennallick

Fee £50 (£40 to Cornwall Botanical Group members)

The aim of this workshop is to be able to identify and name the species of grasses found in Cornwall. There will be time spent in the classroom and fieldwork at nearby sites.

Macro Moth Identification

Date Thursday 16th (eve) and Friday 17th (am) July and Thursday 23rd (eve) and Friday 24th (am) July 2009

Leader Nick Taylor

Fee £50 (£40 to Cornwall Moth Group members)

The evening sessions will be spent setting up the moth traps and identifying some of the moths attracted to the light. The traps will be opened in the morning session and further identification undertaken.

Wildlife Identification and Recording Workshops Intermediate/Advanced Level Autumn 2008 – to Summer 2009

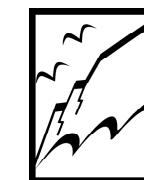

This is the booking form for the advanced wildlife identification and recording workshops organised by Duchy College, Rosewarne.

These workshops are open to all interested in recording wildlife and are intended to help recorders improve their existing recording skills and share their experience.

These workshops also form part of the Certificate of Higher Education in Biological Recording run by Duchy College Rosewarne.

For enquiries about the Cert HE in Biological Recording: contact the Duchy conservation team on 01209 722100 or HE Admissions 01579 372327, e-mail rosewarne.enquiries@duchy.ac.uk or visit the website at www.duchy.ac.uk

Identification and Recording of Fungi

Date Friday 23rd and Saturday 24th of January 2009

Leader Michael Jordan **Fully Booked**

Fee £50 (£40 to Cornwall Fungi Group members)

The aim of this workshop is to be able to identify and record fungi. There will be time spent in the classroom undertaking microscope work (looking at spores, using chemicals etc), as well as participating in fieldwork at sites nearby

Birds of the Woodland

Date Wednesday 11th and Thursday 12th March 2009

Leader Martin Rule

Fee £50

This is a field-based workshop, learning to identify by sight and sound and record the birds commonly found within the woodlands of Cornwall.

Identification of Ferns and Horsetails

Date Wednesday 29th April 2009

Leader Ian Bennallick

Fee £25 (£20 to Botanical Cornwall Group members)

The aim of this one day workshop is to be able to identify and name the ferns and horsetails of Cornwall. There will be time spent in the classroom and field work on Bodmin Moor. Venue Duchy College, Stoke Climsland.

Birds of the Estuary

Date Thursday 12th and Friday 13th February 2009

Leader Martin Rule

Fee £50

This is a field-based workshop, learning to identify by sight and sound, recording birds commonly found within the Cornish estuaries, venues Hayle and Camel Estuaries.

Identification/Recording of Seaweeds

Date Wednesday 24th and Thursday 25th June 2009

Leader Professor Juliet Brodie

Fee £50

The aim of this workshop is to provide training in identification and recording of seaweeds. It will consider morphological characters of seaweeds both in the field and laboratory and consider their ecology to help with the identification and recording.
