

Pond Check

What to look out for...

We want to know how widespread certain invasive non-native aquatic plants are in Cornwall and the Isles of Scilly. The six species illustrated here are some of the ones to look out for. They have or may become established

in ponds and wetlands in Cornwall and the Isles of Scilly and are cause for concern because they harm the environment and increase flood risk due to their detrimental effect on the environment.

Parrot's feather *Myriophyllum aquaticum*

New Zealand pygmy weed *Crassula helmsii*

Floating pennywort *Hydrocotyle ranunculoides*

Curly waterweed *Lagarosiphon major*

Water primrose *Ludwigia peploides/grandiflora*

Large-flowered waterweed *Egeria densa*
